Karel Luyben is Rector Magnificus Emeritus of the Delft University of Technology as of 2018. He has been Rector Magnificus of the Delft University of Technology from 2010 till 2018. Before that he served as Dean of the Faculty of Applied Sciences for almost 12 years.

In 1983 he was appointed full professor in Biochemical Engineering at the Delft University of Technology, and from there has gained experience in research, starting a SME, research leadership, leading European organisations like the European Federation of Biotechnology and CESAER.

Among others he is presently Vice President of the Economic Board Zuid-Holland; Chairman of the Administrative Investment Board of Zuid-Holland; National Coordinator for Open Science in the Netherlands; Chairman of the Board of the Dutch Techcentre for Life Sciences; Chairman of the Taskforce Open Science of CESAER; Member of the Open Science Policy Platform of the EU and from 2019 he has been appointed as chairman of the Executive Board of the European Open Science Cloud (EOSC).

Throughout his career, he has provided and continues to provide consultation services to research organisations, industries and governments in the areas of Technology and Strategy & Policy.

Academic achievements

Teaching: many (mainly biotech-related) courses over a period of some 30 years and supervising almost 200 MSc students next to several Advances Courses in the Netherlands and special courses in more than 10 countries.

Research: promotor for more than 30 PhD-students and (co-)author of 178 ISI-listed publications.
